## **NEW CENTRAL FAX NUMBER**

Effective July 15, 2005

On July 15, 2005, the Central FAX Number will change to **571-273-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number. To give customers time to adjust to the new Central FAX Number, faxes sent to the old number (703-872-9306) will be routed to the new number until September 15, 2005.

After September 15, 2005, the old number will no longer be in service and **571-273-8300** will be the only facsimile number recognized for “centralized delivery”.

**CENTRALIZED DELIVERY POLICY:** For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies. For example, if the examiner has rejected claims in a regular U.S. patent application, and the reply to the examiner's Office action is desired to be transmitted by facsimile rather than mailed, the reply must be sent to the Central FAX Number.

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Invention I Claims 1-19 and 27-35 is directed to a method and corresponding system for executing trading orders based upon at least one order parameter received from a buyer characterizing commodities to be traded.

Invention II (Claims 20-26 and 36-37) is directed to a method and corresponding system for automatically executing trading orders based upon at least one order of a particular commodity found during an automatic searching of a database of commodity parameters.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

In the instant case,

Art Unit: 3624

**Invention I** has separate utility such as executing trading orders based upon at least one order parameter received from a buyer characterizing commodities to be traded.

**Invention II** has separate utility such as automatically executing trading orders based upon at least one order of a particular commodity found during an automatic searching of a database of commodity parameters.

#### **ELECTION OF SPECIES**

2. This application contains claims directed to the following patentably distinct species. In the event that the applicant elects respective one of the following inventions, further election to one claim in each of the listed patent is required. Note that those claims in the invention not covered by the elected species are already included in the invention.

**Invention I.** Claims 1-19 and 27-35, claim 1 and 27 are generic)

Elect one of the following species.

Species reciting trading commodities without pool type options (claims 2, 7, 16, 28, 35)

Species reciting pool type options and selection of a desired pool (claims 2, 5, 6, 8-10, 14, 15, 28, 30-32, 35)

Art Unit: 3624

Species reciting automation of trading in absence of operator intervention and/or over a global communication network (claims 11-13, 33, 34)

Species reciting trading based upon selection of one of the commodities identified to a potential buyer (claim 17)

Species reciting taking at least one order parameter from a predefined group of parameters (claims 2, 3, 4, 19, 28, 29, 35)

**Invention II.** (Claims 20-26 and 36-37, claims 20 and 36 are generic)

Elect one species from each group:

Species reciting pool type options and selection of a desired pool (claims 21-22, 37).

Species reciting automation of trading in absence of operator intervention (claims 24-25).

Species reciting taking at least one order parameter from a predefined group of parameters (claim 23, 26).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An

Art Unit: 3624

argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. A telephone call was made to HOLM, CHRIS on 6/23/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3624

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

#### ***Conclusion***

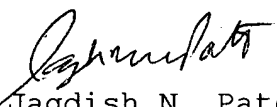

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JAGDISH PATEL whose telephone number is (571) 272-6748. The examiner can normally be reached on 800AM-600PM M-Th.
